

LEADERSHIP DEVELOPMENT PROGRAM

LEADING FROM THE MIDDLE IS TOUGH.

*Go beyond training—transform your leaders
and drive results that matter.*

The boss has priorities, and direct reports have questions. Your business landscape is constantly disrupted. Peers ask for help and toss in extra projects. It's complicated to lead in a diverse and changing world — we know. The reality is that leaders of managers are often the glue that holds organizations together. So how do they juggle the churn, handle competing priorities, and use their power and influence to get work done?

That's where we come in. The longest-running program of its kind, the Leadership Development Program (LDP)[®] is designed specifically for leaders of managers. In other words, those navigating the in-between. Through experiential practice in a dynamic, peer-based learning environment, each participant becomes a stronger individual leader, team leader, and key player in the organization. They gain the courage, resilience, and agility to navigate the disruption, uncertainty, and complexity of today's leadership challenges. And they learn how to manage the pressure that organizational systems and power dynamics place on them and their teams. This isn't just leadership training — it's a transformation that gives participants new mindsets and skillsets to handle challenges that come with work and life
